

**My vision of the market:** Focus is on Moat and IoT / Technology based / emerging companies.

Mankind continuously evolving from Riverside – Agriculture – Industrial – Tech civilized. The future of the stock market shifts to technology & Internet of things companies from Industry-Finance companies. They have economic Moat and highly profitable. Certain companies are IRCTC, INDIAMART, AFFLE, IEX, CDSL etc.

Certain other moat companies are HINDCOPPER, BEPL, ELANTAS BECK etc., as growth in electric vehicle.
