Summary

- Accomplished technology professional with a strong track record of success in dynamic, project-driven environments. Boasting a diverse skill set encompassing QA software testing, software development, and user acceptance testing.
- Seasoned Quality Assurance Tester with nearly two years of industry experience, specializing in Manual Testing within the E-commerce and Advertisement domains.
- Proficiency extends to a wide array of testing methodologies, including Functional Testing, Integration Testing, Regression Testing, Retesting, Smoke Testing, and Sanity Testing, underpinned by critical thinking and adept problem-solving abilities.
- Possess a robust educational foundation, holding a degree in Computer Science. Equally comfortable with agile methodologies and monitoring tools. Demonstrates cross-platform competence across Windows, Linux, and Unix operating systems.

Professional Experience

QA Engineer - Testrig Technologies

01/2022 to Present - Pune, India

Achievements/Tasks

- Orchestrated and supervised test execution activities across multiple projects, ensuring the meticulous implementation of test procedures and scripts.
- Prioritized testing tasks in accordance with project demands and concurrent testing initiatives, guaranteeing comprehensive test coverage.
- Engaged actively in daily stand-up meetings to deliver thorough testing updates, fostering robust interdepartmental communication and alignment.
- Assessed and interpreted system behavior results, offering invaluable recommendations for issue resolution and system optimization.
- Crafted tailored test solutions to align with project scope and coverage prerequisites, addressing specific customer requirements and use cases.
- Served as a mentor to incoming team members, facilitating knowledge transfer and promoting best practices in test execution.
- Contributed significantly to the advancement of product development by collaborating closely with cross-functional teams to scrutinize project requirements, user stories, and acceptance criteria.

Education

- **Master's of Computer Applications, MCA**, (2020-22) from Dr. DY Patil Institute of Management & Research Pune, Maharashtra
- **Bachelor's of Computer Application, BCA**, (2017-20) from Haribhai V. Desai College, Pune, Maharashtra

Project Details

Project #1: Clippd

Domain: Sports Technology

Description: Clippd is a comprehensive golf application available on both web and mobile platforms. This multifaceted application empowers users to meticulously record their golf activities and scores while providing a platform for golf practice.

Responsibilities:

- Conducted a range of testing activities, including Functional Testing, Sanity Testing, Regression Testing, Web Testing, Integration Testing, and Smoke Testing, with a high level of proficiency.
- Meticulously documented and reported software defects within the Azure environment, maintaining a comprehensive record for analysis and resolution.
- Collaborated seamlessly with cross-functional teams to gain a deep understanding of project requirements, ensuring thorough test coverage and alignment with project goals.

Project #2: Vestiaire Collective

Domain: E Commerce

Description: Vestiaire Collective is an online store specializing in luxury fashion items, with a focus on critical quality checks and performance. Every individual customer can be a buyer and seller. The platform offers a very easy and convenient form to list an item and once the item passes all quality checks it gets listed immediately and the item gets exposed to the world.

Responsibilities:

- Collaborated closely with stakeholders to facilitate the collection and clarification of requirements, ensuring seamless alignment with testing initiatives.
- Led root cause analysis efforts on identified defects and communicated findings effectively to the development team, facilitating prompt resolution and continuous improvement.

Personal Skills

- Proficient in effective communication and interpersonal skills.
- Demonstrates strong time management capabilities.
- Exhibits the ability to work effectively under high-pressure situations.
