Field Study

"Understanding Firm's Awareness About Government Schemes "   03/2023

Conducted in-depth interviews with both organized and unorganized Micro, Small, and Medium Enterprises (MSMEs) to assess their awareness and utilization of 15 different government schemes designed to benefit MSMEs. Collected data on any challenges faced by MSMEs and gathered feedback and recommendations from them for potential policy improvements.

Project

"A Study on Market Anomalies Based on Nifty Index"   12/2022

Conducted detailed analysis of market anomalies in Nifty Indexes, including Nifty Largecap 50, Nifty Midcap 50, and Nifty Smallcap 50, using 12 years of secondary data from 2010 to 2021. Implemented multiple dummy variable regression techniques to compare and identify the presence of Turn of the Year (January) effect, Turn of the Month effect, and Weekend effect in these indexes. Utilized statistical methods to identify patterns and trends, and generated insightful findings to inform investment strategies.
