Here I am able to gain Managerial and Financial knowledge about Market's. Organizing events and Participating in daily activities is helping me to gain knowledge about every aspect that is

important for one's growth.

Projects

Jan 24 -
March 24

Project Work The study of the impact of government schemes (Start up India, Make in India, etc) on stock market

This project analyzes how government schemes like Make in India and Startup India affect stock markets. It examines the impact of these initiatives on sectors, stock prices, and investor behavior, exploring both short-term market changes and long-term economic effects. The study provides insights for informed decision-making by investors and policymakers.
