## SALESFORCE TRAINING PROJECT

### *Banking Solution* Salesforce App

Duration: 60 Hours

- *Designed and developed a custom **Salesforce App** tailored for banking operations.*
- *Created and utilized **custom and standard objects**, establishing **relationships** between them to manage banking operations data.*
- *Worked on **data modelling** and management, defining the structure and relationships of data within the system.*
- *Designed automation using **Flows** to streamline processes such as **approvals** and notifications.*
- *Created **validation rules** to **ensure data integrity** and accuracy throughout the banking system.*
- *Imported, exported, and managed data using **Data Loader** and **Data Import Wizard** for seamless data integration.*
- *Implemented data security by creating **profiles, roles, permission sets**, and enforcing object, field, and record-level security.*
- *Created **email templates** to facilitate standardized communication within the banking system.*
- *Set **up role hierarchy** and sharing rules to ensure secure and appropriate data access across teams.*
- *Customized the user interface by **designing page layouts** to enhance user interaction.*
- *Developed comprehensive **reports and dashboards** to provide insights into key banking metrics.*
