WORK EXPERIENCE

JP Morgan & Chase, Mumbai India

(September 2019 to January 2023)

Financial Reporting Analyst Sep 2019 - Jan 2023

- Developed and implemented an enhanced control framework, ensuring a continuous and integrated approach to risk assessment, detection, and mitigation.
- Produced executive-level reports, monthly presentations, and meeting minutes highlighting critical risk and control issues.
- Conducted top-down risk analysis, real-time control issue detection, root cause analysis, and remediation strategies.
- Supported the execution of the Compliance and Operational Risk Evaluation (CORE) framework, assessing risk and control environments, identifying gaps, and ensuring effective remediation.
- Analyzed program-related data (e.g., KRI/KPI) to proactively identify emerging operational risks and improve risk management strategies.
- Engaged with cross-functional teams, including business operations, legal, compliance, risk, audit, and technology control functions, to ensure seamless control management processes.
- Provided subject matter expertise on control-related projects, assisting in process analysis, workflow management, and operational risk mitigation.
- Managed issue workflows, including root cause analysis, action plan development, validation, and resolution tracking, to ensure compliance and minimize regulatory exposure.

Summer Internship at IndusInd Bank Corporate Office, Mumbai

(May 2018 – June 2018)

- Conducted comprehensive market analysis and scoping for the Indian Castings sector, identifying key growth opportunities and trends.
- Developed a detailed competitive landscape analysis, evaluating three leading companies within the industry.
- Executed a field visit to Jayaswal Neco Industries Limited, analyzing operational processes and industry best practices.
- Delivered a compelling presentation on the Indian Castings sector to stakeholders at IndusInd Bank, showcasing research findings and strategic recommendations.

ACADEMIC PROJECTS

Global Citizenship Leadership Programme

Collaboration with Centre for Creative Leadership (CCL), Greensboro, NC, USA

- Led a project to enhance sales for Self-Help Groups (SHGs) under Maharashtra State Livelihoods Rural Mission (MSLRM).
- Conducted primary and secondary research, developed marketing channels, and implemented an e-commerce platform to boost revenue.
- Collaborated with stakeholders to develop strategic financial plans and optimize resource allocation for SHGs.
- Participated in a One-Day Assessment Centre, focusing on financial decision-making and leadership development.

CERTIFICATIONS & SKILLS:

- Post Graduate Program in Data Science and Business Analytics by The University of Texas at Austin.
- Certificate in Information Technology by Institute of Chartered Accountants of India
- Orientation Programme by Institute of Chartered Accountants of India
