Education

NDMVP College of Engineering , Nashik   **July 2019 – July 2023**
Bachelor of Engineering in Information Technology (CGPA - 8.17)   *Nashik, Maharashtra*

Experience

Upperthrust Technologies Private Limited   **Aug 2023 — Present**

Unify | *React Native*

- I worked on the **Clienteling** and **Reprint modules**, taking **ownership of both**. In the Clienteling module, I implemented a **customer search** and a **customer profile dashboard** displaying details such as **customer data**, **charts**, **orders**, **feedback**, and **coupons**. The **dashboard** also showcased **purchasing history**.
- In the **Reprint module**, I developed **features** like displaying all **invoices**, **product scanning**, **filtering**, and **printing invoices**. Additionally, I conducted **R and D on Epson printers** to ensure seamless **printing functionality**.
- These modules **enhanced customer interaction** and **operational efficiency** by **providing detailed insights** and streamlined **invoice management**, **showcasing my ability** to handle **end-to-end module** development

Kiosk | *React Native* | Link

- I developed a **shopping app** for **Trends** and **Zudio** with **various features**, including **user login, product addition, RFID scanning, coupon and offer application, adding items to bags, and all payment options**. Additionally, I worked on **R and D for Bluetooth printer integration**.
- It also handles **product amount calculations**, and **currency details**, supports all **country languages**, and offers a **dark** and **light** mode option among other features.
- I worked on the **front-end UI** and **API integration** parts of the **app**, which are **currently being used in stores**

Crazy Cookie| *ReactJs ,ThreeJs* | Link

- I created the **Crazy Cookie** app, a **three-level** game with **shapes**, each having **inner** and **outer** coordinates. At the **start**, the **camera detects** the **user's face** and **captures nose**. Placing a **pencil on the nose** initiates the level, and a shape appears.
- If the **pencil touches inner coordinates**, they **vanish**; **touching outer coordinates** makes them **disappear**, leading to the **next level**. The game has a **timer** and **scoring**.
- Completing **all three levels reveals the final score**. With **captivating illusions**, it's perfect for **live streaming platforms**. it having a **10000 actively user**

Projects

CRUD Application | *NodeJS, ExpressJS, MongoDB*   **Link**

- Build a **user management system application.**
- It allow users to **perform CRUD operations:** insert, delete   and **edit** their data. **Display** user data for easy reading within the application.
- Optimize **responsive design** for **seamless user experience** across **desktops**, **tablets** and **smartphones**.

CHAT ROOM Application | *NodeJS, ExpressJS, Soket.io*   **Link**

- Group chat application   allowing users to **enter a name** and **select a room** to join for the **community chat**.
- Users can engage in **real-time conversations** within the **chosen room members**.
- The application is **fully responsive**, ensuring seamless communication **across all devices**.

Technical Skills

Programming Languages: C, C++, SQL.
Frameworks & Libraries: JavaScript, ReactJS, React Native, NodeJS, ExpressJS, MongoDB, Postgres.
Other Tools: VScode,Git.

Subjects

- Object Oriented Programming
- Computer Networks
- Database Management System
- Operating System
